

A New, More Colorful World Of Opportunity

Introducing **CONCISE Colors** custom cosmetic and prosthetic tinted contact lenses. Utilizing the Orion Vision Group's advanced tint process and custom lens designs, **CONCISE Colors** contact lenses give you the power to fit virtually any patient in natural opaque tints.

BioColors™ allows you to customize not only the tint, but the additional cosmetic features

Tint

Tint + Starburst

Tint + Limbal Ring

*Tint + Starburst
+ Limbal Ring*

CONCISE Colors lets you fit tinted lenses for virtually any patient with nearly any prescription or corneal geometry.

The CONCISE Colors Order Process

Refer to the CONCISE Colors fitting guide for specific fitting recommendations.

1. Ensure you have a CONCISE Colors diagnostic set; diagnostic assessment of tints and optional features is essential to fitting CONCISE Colors
2. Diagnostically fit the varying tint colors to determine preferred tint—note tint number
3. Piggyback starburst and/or limbal ring diagnostic lenses to demonstrate full cosmetic feature—note preference
4. For prosthetic fitting, you can piggyback underprint tint shades and/or occluded pupil to visualize full prosthetic effect
5. If required, assess the rotation of the Custom Soft Toric using the supplied lens (*recommended for average corneas only*)
6. If required, obtain new refraction
7. Contact the Specialty Lens Division at ABB OPTICAL GROUP by dialing: 1-800-772-3911 (*select option 3*)
Please provide the following:
 - BC/Diameter or patient HVID & K readings
 - Lens Rx
 - Color Tint #
 - Optional Cosmetic Features: Starburst, Limbal, Both
 - Prosthetic Features: Underprint Shade, Occluded Pupil, Pupil Size
8. Diagnostic Fitting Set is required for warranty exchange.
9. Average delivery time is 5-7 days.

Beauty That's More Than Surface Deep. CONCISE Colors features sub-micron size pigments, a proprietary processing technique developed by Orion Vision Group. This revolutionary process results in an incredibly smooth, vibrant pigment layer, as well as outstanding comfort. In addition to base tint options, at no additional charge, you can order a starburst effect, limbal ring, or both. These options are very important when blending the natural eye color.
